This book #3 is the 3rd book from Pamela's collection I own. I just had to have it for the Moose, Bear, Otter and Swan- but every page is wonderful. The book is well made. I love the bigger size of it- and that it's spiral bound-making it easy to lay the page flat while coloring. The paper is the best I've ever colored on-(and I have many, many books so I've come across quite a few different types of paper- and most are not that good). I use everything on them- Sargent makers-and gel pens. Water color pencils- Crayola, Creatacolor, Faber Castell and Prismas...all work great. Each page is so unique and beautiful and so much fun to color! I also like how there is a Facebook page devoted to her coloring books...it's so enjoyable to see what other's have colored there or to get inspiration. I hope to have all of her books one day- and look forward to the new books in the future. 1 of 1 people found the following review helpful. Great Adult Coloring Pages. By Trudy I bought this for a replacement to another Color Me Book I had from the same author. I couldn't find the exact one I had so bought this one instead. I gave it to my mom and she is happy with the pictures in it. Some are really cute, others beautiful. They are really intense for adult coloring and have some really fine detail. There is a lot of variety and I would definitely buy one of these books again. The pages work the best with gel pens and colored pencils as the detail is to fine for a lot of markers. 5 of 5 people found the following review helpful. One of the best times between generations! By RICHARDJANSOUKUP Great color book reaching from grand kids to grandparents resulting not only in icreativity but also meaningful conversations between "the artists".

Color Me 3 is the third book in the bestselling Color Me your Way series. This whimsical coloring book, filled again with nature-based images, adds detailed hidden images for the coloring enthusiast to discover. Images in this book include more Northwest animals such as the ram, bear, moose, and ducks.
