Pamela Smart : Color Me Your Way 5 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Color Me Your Way 5:

0 of 0 people found the following review helpful. Glad I bought it! By Patricia Heacockchanging, with interesting details. 5 of 5 people found the following review helpful. Beautiful and large spiral bound coloring book – printed one side of the page. By iiiireader[[VIDEOID:14f49daa14d53b9e307751ee9251b041]] “Color Me Your Way” is the fifth book in a series of coloring books by PJC Smart. It is also noted as her fifth year anniversary book as well. The book is absolutely beautiful with a wide variety of animals included in the designs. There are 24 11 x 16 inch illustrations and a page with two card size designs. The designs are quite detailed with lots of “doodle” elements within the various animals. This makes for a wonderful coloring experience with lots of opportunity to play with colors and shading. As the book is quite large, the details are clear and are easy to color with a wide variety of coloring elements. I’m so pleased with the way the book is published – the spiral binding makes it easy to lay the book flat and to get to all corners of the design (which have framing lines at the outer edges to finish off all of the elements for a clean look.) By using larger format, the artist can give us large designs without printing across a binding. It simply makes coloring easier as well as tremendous fun. This is what I found while coloring in this book and testing my coloring medium on the paper. 25 pages of detailed animal designs including 24 large format designs and 2 card size designs. Printed on one side of the page. Paper is heavyweight, white, lightly smooth and perforated. Spiral bound. Designs stop well before the perforations and spiral binding. Designs have framing lines at the outer edges. Alcohol-based markers bleed through the page. I use card stock or heavy weight paper below my working page if I use this type of medium. It keeps ink from seeping through to the next page. You can always remove pages from the book before coloring as well. Water-based markers, India ink pens and some gel pens leave a very light shadow on the page. Colored pencils work really well with this paper. I tested both oil and wax based pencils and could get good pigment on the page. I was able to layer the same and multiple colors easily. Blending with a pencil style blender worked well, too. 1 of 1 people found the following review helpful. Love these books. By Sharon B. Watson I had gotten #1-4 at Costco when I started coloring, had to go get #1-4 for spouse, I don’t always share well if it has to do with my coloring books. Got doubles of #5 and

will do same when #6 hits the market. I do share my pens, pencils, paints, markers and anything else that makes color. These pages are strong and thick. I always use something under picture since some of my markers will bleed through, especially if I go heavy on the color, but never had them pucker when using water color pencils. Love these books!

Color Me 5 is the fifth book in the bestselling Color Me Your Way series. This whimsical coloring book, filled again with nature-based images, adds detailed hidden images for the coloring enthusiast to discover. Images in this book include more Northwest animals such as the ram, bear, moose, and ducks.

About the Author Pamela Smart is a self-taught artist influenced by her mother and the multicultural background of growing up in Hollywood, CA. She's had a love for both animals and art since she was a little girl, which led her to illustrate the bestselling family coloring book series Color Me Your Way. The mother of four children, she lives in Boise, ID, where she continues to work on new additions to her internationally bestselling coloring book series.
