3 of 3 people found the following review helpful. great pages and artist credit!By MonkeyarcherThis is a beautiful book. It has a lovely selection of artists from the Golden Age through Now. This includes some unusual Comics Calvacade covers, the powerless White Go-Go Outfit era, a Lynda Carter, SuperFriends, and many iconic covers.

Some may seem a bit dark or complicated at first for coloring, but most are very good selections for pencils, from simple to challenging spaces. (Please note that I referred to pencils. Just like most these current coloring books, they are not suited well for wax crayons - sadly, since I love my crayons. If you are old enough to remember Doodle-Art from decades ago, yes, you could use markers, but just like before, the ink will bleed through and effect the artwork on the other side of the page, so I would not advise it.) Best part for those of us who are comic book fans, the art is clearly identified! FINALLY someone gets it right! On the last page, you will find not just the name of the artist who created the original, but also the year and source. Thank you for acknowledging the work, guys! For those who are fans (or vehemently not) or the Wonder Woman/Superman pairing, of the 90 or so pages, 6 (and a half, kinda - you'll know when you see it) are of this paring. Additionally, there are two are from classic Superman/Wonder Woman fights! And one appears to be after Harley Quinn has kissed Wonder Woman. I am looking forward to getting more of these, including the upcoming Batgirl Coloring Book!

2 of 2 people found the following review helpful. Ideal for all true Wonder Woman fans
By David G. Lloyd
This book contains a wide variety of beautiful Wonder Woman images at various points of her career, from when she was first created in 1941 to today. It therefore also serves well as a fantastic compilation, pinpointing the highlights of her illustrious adventures. Ideal for all true Wonder Woman fans!
BTW You may be tempted to buy 2 copies: one to colour and one to leave be (to appreciate the elegant simplicity of black and white)

8 of 9 people found the following review helpful. You'll Need Your Colored Pencils For This One
By thirdtwin
Wide variety of interpretations of Wonder Woman for you to color-worth the try but loss of one star because the pictures are on both sides of the page so markers are out- and there is already some black ink filled in these pictures instead of just straight line work as it should be. Still enjoyable because of the variety of the art work but could have done without the black fill-in done for you if they had printed the pictures on one side of the paper only- you could have used your markers.

Now you can color DC Comics and all of its most popular characters your way with COLORING DC: WONDER WOMAN! DC Comics presents this iconic hero in a whole new way: in black and white, on heavy stock suitable for coloring! DC's Amazon Warrior stars in a new coloring book focusing on her greatest covers, splash pages and more by some of comics' top artists! This graphic novel features classic illustrations from some of the most well known Wonder Woman artists of all time, including George Pérez, Jim Lee, Brian Bolland, Amanda Conner, Ross Andru, H.G. Peter, Cliff Chiang, Phil Jimenez and more!
