I have all 4 of them and am part of his "coloring community" and am loving it. The drawings are works of art on their own so I always order an extra book to leave uncolored and pristine. For a beginner, some pages may seem intimidating because of the incredible detail but there is something for everyone and once you dive in and follow Bennett's lead with his shading, you're hooked! Although many pictures are considered more advanced coloring, I highly recommend this book to any colorists that is looking for something different and fun!10 of 11 people found the following review helpful. Paper is not heavy or glossy but handles many different brands of pencils nicely. His drawings are fantastic to colorBy Sherry GricarThis is the 4th book I have gotten from this artist. Soft front and back cover looks very unique. One sided drawings which are definitely a

plus. Paper is not heavy or glossy but handles many different brands of pencils nicely. His drawings are fantastic to color. Will continue to purchase his books. 9 of 10 people found the following review helpful. Beyond Fabulous!!! By DL Each book of Bennett's books just keep getting better and better!!! I love his imagination, whimsical and fantasy sketches. There is a little of something for everyone.
