**Comickers Magazine : Comickers Coloring Book** before purchasing it in order to gage whether or not it would be worth my time, and all praised Comickers Coloring Book:

I'm disappointed that all the available tutorials didn't come with it. Warning is that you'll need to rip the pages out of the book to effectively use the lineart that's included in this book. (not my favorite feature). overall, worth the purchase in my opinion. Eventually all the pages will be ripped out and i can just use the book more like a portfolio cover. i'll probably need some sort of tie or band to keep all the papers in there. 0 of 0 people found the following review helpful. A Great Buy By Hinna W. This book was wonderful. Simple, but the illustrations were great. Perfect for just a bit of fun with some crayons or serious coloring practice with colored
