If you're not really a reader and were going to read only one book I would say you should get this one. Only took me about a day or so (off and on) to read and the information given is to the point, no fluff. Lots of really great tips and tricks for new dads. 0 of 0 people found the following review helpful.

So fun and creative

I ordered this book for my boyfriend when we were expecting our daughter. I knew he'd most likely get bored reading some of the regular baby books that are available and after reading the description, this book seemed perfect. I was right and he read through this book very quickly. It is very informative but also amusing so it was fun to read. The book also arrived before the estimated delivery date which was really nice since I needed it here by his birthday and did not think it would make it in time. I would definitely recommend this book to anyone expecting a child who wants to be informed but also enjoys books that are entertaining

This is a humorous and entertaining book for a new father. I make it a point to get the expecting father (at a baby shower), and the new father, a gift because people seem to 'forget' about Dad. I read this book first (to make sure it was worth gifting) and then gifted it to my children's God father. He enjoyed the book as much as I did...and, trust me, his wife was happy as well (I think she even set up a reading schedule for him to make sure that he finished the book!). I recommend this book.

As used by Prince William himself, here's the basic training manual for fatherhood recruits!  
This easy-to-use reference is packed with practical, fieldtested instructions for caring for new troopers, from birth to age three. New dads will learn how to prepare the home for the latest addition to the corps; establish a sleep routine; deal with hostile uprisings; feed, burp, and bathe a baby trooper; and much, much more. Written by an ex-commando and father of three, the book looks and reads like a basic training military manual and is full of no-nonsense advice delivered in a relatable and warm—but not sappy—tone.
