Thomas Dolt, Ian Dullard : Complete Idoit's Guide for Dumies before purchasing it in order to gage whether or not it would be worth my time, and all praised Complete Idoit's Guide for Dumies:

0 of 0 people found the following review helpful. You'd be a complete idiot not to read this bookBy Jeff AbbitAlthough this book was written by a Dolt, it's really a phenomenal piece of literature.I can't wait to see the movie!0 of 1 people found the following review helpful. Dated, and just dumb.By Cat MannI bought it used (luckily), thinking that maybe, just maybe, there would be some humor inside. What I found was a mishmash of unrelated junk text, without coherence, barely funny, and attempts at current-event jokes that fall flat.If you needed kindling for a campfire, by all means, bring this book along.6 of 6 people found the following review helpful. Good for the time period, some laughs although it's fairly dated now.By lucifer_samIf, in these post 9/11-Iraq War-Patriot Act days of ours you need a nostalgic throwback to when the Spice Girls and Survivor were the most disturbing things going on in American society, this book might do it for you. This book was written around the beginning of the period when our society truly started taking in REALLY dumb television and media and is incredible satire to that end. Of course, there are the requisite Clinton/Lewinsky jokes that were new then but beaten into the ground now. Not a bad read...I still

open mine up every now and then.
