from VA, NY or NJ who like the book...and even more interesting is that when you click on their profile to see what else they have reviewed, THEY HAVE REVIEWED NOTHING ELSE!! This is obviously her friends who went on here to promote the book! We read this for our book club, and honestly it did not go over whatsoever. I feel bad for the author, as I'm sure these stories are hysterical in person, in this book though, it was completely disjointed. It made me wonder how this woman got a book deal, my emails and facebook posts are more completely thought out. 2 of 2 people found the following review helpful. A bit biased By R Lampert Not to negate Susan McCorkindale's experiences, but the way in which rural life is treated with such disdain is only funny the first time, afterward it is simply insulting. For someone with such experience in the marketing world, I am surprised at how well this text has sold. I can see how it may be humorous to a naive city crowd, but McCorkindale needs to find more appropriate adjectives to describe her experiences; those she uses become old and overused quickly during the read. 0 of 0 people found the following review helpful. Really disappointed in this book after having read so many books ... By Mainiac Really disappointed in this book after having read so many books about women leaving it all behind to pursue farming. The whole yuppy theme got very boring, quit after 109 pages.. when they finally made it to the farm, which was refurbished to their "taste'...

A laugh-out-loud memoir about a city slicker who discovers that Manolos and manure just don't mix. At her husband's prompting, suburban mom and New York career woman Susan McCorkindale agreed to give up her stressful six-figure job. Together, they headed down south to a 500-acre beef farm, and never looked back. Well, he didn't look back. She did. A lot. From playing "spot the religious billboard" on the drive to rural Virginia, to adapting to a world without Starbucks, to planning bright-orange hunter-resistant wardrobes for the kids ("We moved here to get away from the madness of Manhattan only to risk getting popped on our own property?"), this is her hilarious account of how a city girl came to love—or at least tolerate—country life.
