It is a very thoughtful book. I like that Zig Ziglar's dog, a little Welsh Corgi is the "author". Because it is written from Taffy's or Dirty Dog's point of view the

book is both humorous and sad at times. Zig Ziglar is a wonderfully talented speaker and author. He did it again with *Conversations With My Dog*. I have always thought my dogs are listening to me and thinking. I really liked reading this book and will read it again. I did not receive this product at discount for my honest review. Good for some maybe, useful info, but not my taste. By M Copeland Not my cup of tea. Don't get me wrong, good stuff, valid points, useful info, but I just can't really get too excited about a talking (or telepathic?) dog and his owner learning life lessons. I do think pets, especially dogs, have a lot of illustrative values for story tellers and teachers, but the concept just doesn't come off that great here. 0 of 0 people found the following review helpful. *Dirty Dog* By Hut4pups I loved the way you used the back and forth conversations with Dirty Dog to encourage us to stop and reflect on the lesson you were teaching us. We need to be reminded and the lesson goes down smoother when we think we are just being entertained. I'm sure he had the best life possible with you and the Red Head as his parents. I enjoyed the way you got your message out. I'm going to look for more of his work. I believe most anyone will enjoy reading this story.

Most people talk to their pets (some people even talk to their plants), but Zig Ziglar does more than just talk to his dog. He has conversations with him. Taffy is Zig's little Welsh Corgi. Taffy moved into the Ziglar household in early 1995, and it didn't take him long to endear himself to Dad (Zig). Over the years Taffy has been a part of the Ziglar family—including some really painful years of mourning. *Dirty Dog* (Zig's affectionate nickname for Taffy) and Dad have talked about many facets of life—from faith to health to relationships. They decided (collectively) it was time to write a book.
