My cousin was reading excerpts from it as soon as it was pulled from the box, definitely the most interesting thing opened that year. Good funny book, quick read with some

good advice for entertaining the ladies. The recipes are absolute crap so I haven't even bothered with them, but the fundamentals are strong and the advice is solid. Know your audience, don't try to pull off something you can't do and always have an appropriate drink pairing for what you make. This advice works if you are still out on the prowl or if you are trying to keep the one you have at home interested. 1 of 1 people found the following review helpful.

**LAUGHED UNTIL MY STOMACH RUMBLED** By Irving V. Augur This book was a birthday gift along with a set of cooking knives. I think my girlfriend was trying to tell me something. It is a very entertaining read that I'd say is more of a humor book than a cookbook. But it does make you laugh throughout and the recipes are quite good. The brownie recipe in the Aphrodisiacs Anonymous chapter under Chocolate = Crack in particular is great. I have made them twice with nothing but praise. This is a great book for guys interested in cooking who want a little bit more than just a book of rehashed recipes. Bang-a-licious! 2 of 2 people found the following review helpful. **Hilarious** By Peter Thompson Loved this book. I laughed out loud at least once a chapter. When he goes through every different type of girl and the things they each like to eat - priceless. But it also makes a brilliant point that had never occurred to me for some reason - cooking is a great way to impress women. It's so true. And since I have been known to burn Ramen Noodles, it is a much-needed guide. Already tried one of the recipes, it's easy to follow and I actually made something that tastes good!

Tired of dates that leave you with nothing but a \$150 dinner tab, a doggy bag, and blue balls? Enter *Cook to Bang*, a guide to wining, dining, and sixty-nining for cooks who don't know their asparagus from their elbows. It offers a history of *Cook to Bang* seduction throughout the ages, tips for setting the bait, the best menu for each "sexual profile," methods for creating a sexy-time vibe, and a game plan for how to make your move. Born from the popular Web site, *Cook to Bang* is an everyman's guide to cooking your way into your date's bed.

From Publishers Weekly Private chef Walker, formerly a creative executive for Nickelodeon and the Cartoon Network, puts his talents to misogynistic ends in this off-putting cookbook, aimed at the young male demographic who made Tucker Max a bestseller and treat *The Game* as a guide to life. Dedicated to helping novices "cook an amazing meal and bring out their date's inner slut," Walker presents basic cooking and entertaining techniques doused in graphic anecdotes, casual insults, frat-boy innuendos and plenty of disdain for the opposite sex. Sound advice on presentation, kitchen essentials, wine pairings, and flirting is buried amidst Walker's steadfast commitment to the low road, including digressions on farting, recipe titles like "Tap That Ass-paragus Soup" and "Miso Horny Cod," and witless bon mots like, "boozing has always been as American as apple pie eaten off Betsy Ross' tits." Stale chauvinist humor aside, Walker's guide doesn't live up to its potential, content to circle the drain endlessly with a tiring litany of female stereotypes and recycled seduction strategies. He teaches you how to tap your inner Julia Child and easily tap that girl's Houston Chronicle A bumper-to-bumper culinary seduction guide covering everything from drink pairing to mood music. Huffington Post Walker's step-by-step process turns Chef Boyardee into Chef Justgotlaidlastnight. AOL's Asylum Don't take Walker's word for it: according to celebrity chef Mario Batali, "There's two ways to make someone happy-both are by putting something in them." Newsweek Spencer Walker's highly anticipated *Cook to Bang*. NY Magazine Miss Manners it's not, but undoubtedly smart stuff. Philadelphia City Paper I would suggest this book to anyone who likes to read, cook, laugh or wants to get closer to a lady friend.
