I took this out to a relative's birthday party to play the restaurant tricks at the table, and one out of five worked. Yet just holding this book and flipping through it is a pleasure. There's something about the layout, the old black-and-white pictures and the humor in the text - and the anticipation of magic. The trying of the tricks itself is exciting. I didn't care they failed. 1 of 1 people found the following review helpful. Fun and silly book By A Customer More than jumping rope and playing jacks, this book covers shadow animals, paper tricks, paper airplanes, a recipe for homemade soap bubble mix, tricks with yo-yos, tops, simple juggling, balloon tricks and animals, the string game Cat's Cradle, plus the skill I have always wanted to learn -- how to whistle with two fingers. No, it's not Tolstoy, and the photos of what look like the author's friends and neighbors give it a 'Berkeley in the 70's' feel (after 10+ years it could use some polishing) but I'd recommend it as an entertaining read for anyone facing a B'day past 30 who is in need of a little fun. 2 of 3 people found the following review helpful. It would be just as well to burn you cash as buy this book. By A Customer I was very embarrassed that I even bought this book. Some of the items given the most time

w/this softback are "Jumping Rope", "Playing Jacks", "Blowing Bubbles". Also, full instructions on how to whistle are in this book. There are about 3 decent self-working card tricks. But the balance of the paper the book is printed on would have been better used as toilet tissue. Please save you cash on this one. If you are interested in the card tricks, just email me and I will tell you about them
