Bob Kinford : Cowboy Romance: (Of Horsesweat And Hornflies) before purchasing it in order to gage whether or not it would be worth my time, and all praised Cowboy Romance: (Of Horsesweat And Hornflies):

He is obviously knowledgeable about his subjects (cattle and horses) and is also very entertaining with a quick wit. I believe anyone who has been in a few wrecks with livestock, as I have, will enjoy

his writing immensely and suspect the uninitiated will also recognize his experienced view. 2 of 2 people found the following review helpful. Great book By D.K. Heath While I don't have the vast experience working cows that Bob has, I have day worked on more than a few ranches, and worked my way through college ponying dudes. So to say I identified with his stories is an understatement. This book was a real gem. I laughed from the 1st page to the last and promptly bought his other book. Keep up the good work Bob! 0 of 0 people found the following review helpful. funny and interesting By Kindle Customer Very informative , and a well written book , I would like to read more by the author . And the humor was a nice surprise

True stories of "cun-cussin" induced cowboy humor from a working ranch cowboy with over 35 years in the saddle. Bob's writing will make you feel the pain and see the humor of living life in the cowboy lane. From being "bull-taputed" to being hit by lightning or dragged across the desert by his foot under a runaway bronc mule, Bob Kinford will have you simultaneously laughing and wrenching in pain. A must read for real cowboys and "wannabes" alike!
