adults, may be better for middle school/HS students. Still a good read, would recommend. 0 of 0 people found the following review helpful. Five Stars

GREAT!

Crap teaches which types of crap are useful (and which aren't), how to avoid crap when possible, deal with it when it can't be avoided, and how you can flush it out of your life. You'll learn how to break the crap-cycle once and for all with quotes from noted crap-coping experts like Homer Simpson and Kurt Vonnegut, and even get a few little-known biological and scientific facts about--yeah, you guessed it--literal crap.
