Montgomery I must disclaim that I have known Bev for almost 20 years. She is one of the most genuinely funny, smart and smartly funny people I've known. It's great to see her talents finally in widespread print. As for the book, it's wonderful. Funny, sharp, (as noted) crass in the best possible sense of the world, and without a doubt geared towards an adult audience that likes humor that takes both the high road, the low road and the subway at the same time. I tend to read at night, and as such when reading humor books, I tend to wake my significant other when reading particularly funny books. She can tell how funny a book is by how difficult it is for her to get to sleep. Let's just say she slept badly for two nights straight. This is a book you can fly through in no time, but it's a tear-inducing bit of work here. Now, the items themselves are pretty absurd... nightmare fuel, in some cases. That would be amusing enough, without any commentary. However, that's the magic of the book. The author commentary (on the level of Mystery Science Theater 3000's best writing often), interactions with auction people and feedback are gut-wrenchingly funny. Also, it's not fit for kids. Seriously. This one is your book, adult folks. However, be prepared for high quality poop jokes, sexual innuendo and outright profanity. All of which are used like surgical instruments in the most craftsmanlike manner to bring you the funny. Buy this. 0 of 0 people found the following review helpful. Three Stars By Hieronymus Utter Bosch Fun time-waster. Weirdly, there was a typo in the acknowledgements... something you wouldn't expect, as the person is semi-famous. 0 of 0 people found the following review helpful. Crap is amazing! By D. Beattie I was truly amazed at what was purchased on eBay in this book. From dinosaur dung, to deeds for moon property, to taxidermy cowboy squirrels... you'll be cracking up at the insane items listed in this book! Can't wait to check out more books by Cary McNeal... these are hilarious!
