Joey Chou : Crazy By The Letters - Mental Problems From A to Z before purchasing it in order to gage whether or not it would be worth my time, and all praised Crazy By The Letters - Mental Problems From A to Z:

3 of 3 people found the following review helpful. Crazy By The Letters - Mental Problems A to ZBy Jacqueline ChappellFirst, thank you - for adding pictures of the cover and inside. The written description of the content, as well as information about the author, is certainly something everyone looking for a book they haven't read would hope to find.My ten year old granddaughter read this book aloud to me, stopping for help with words she couldn't pronounce. After each illness, we discussed what each of us had learned. The way these illnesses were introduced and defined kept my granddaughter's interest. And I was proud to hear her say that kids shouldn't make fun of anyone who has a mental illness, or be ashamed to be their friend. Perhaps it should be in elementary and middle school libraries!Grandma in Phoenix, AZ0 of 0 people found the following review helpful. Brilliant!By David RotmanGreat book! Brilliant concept - and brilliant execution! Obviously Joey is as crazy as all of us.0 of 0 people found the following review helpful. Five StarsBy JohnyGood book

In children s book format, this gift book mixes dark humor and stylish illustration using kids as the subject of both well-known and obscure mental illnesses. Each page goes through the alphabet defining each letter's respective illness along with a funny situational statement about the kid who is suffering from the illness. An illustration is also provided. The style of the book has an antique or old movie feel to it reinforcing the darkness of the subject. The use

of kids adds the human element and helps keep the book light-hearted and fun. This is Joey's first book that he's both written and illustrated and has plans to do others in the "Crazy" kids series.

Joey Chou goes through the alphabet and puts together a pseudo children's book in which every other page features A-B-C's like autistic, bipolar, and conduct, ending in zoophobia! He doesn't make light of any of the disorders; the accompanying text is a straightforward explanation of each mental illness. Meanwhile, the drawing style is retro and appropriate. --Giant Robot

About the Author
Joey Chou was born in Taiwan and moved to sunny California when he was 14 years old. Joey received his BFA from Art Center College of Design in 2006. He currently lives in Los Angeles and enjoys drawing, painting, and the sunshine. You can view his portfolio at joeyart.com
