Beautiful Bird Designs – 30 Intricate and Graceful Coloring Book Designs By iiiireader[[VIDEOID:7034eacdff5351f328719a7bef85c16]] This is a set of 30 bird designs that are simply beautiful and intricate to color. It is one of the newer coloring books by Valentina Harper. For some reason, it has a misnomer of “activity book” on when it is really a coloring book. This is my first coloring book by Valentina Harper but I will certainly look for more books by her in the future. I have purchased books by this same publishing line (Design Originals) by other artists and this book is the same high quality book. In addition to the designs, the artist has

included information about basic color ideas and basic color tips at the front of the book, along with some great color examples (some of which I will show in my attached photos.) The lessons are generic to the color book line but the samples are specific to the designs in this book. The pages are white and are perforated for easy removal. The designs are printed on one side only with beautiful and inspirational quotes on the back. The quotes have to do with being free to soar in your spirit – in some cases using birds as examples and in others, not. The quotes range from Evel Knievel (who certainly knew how to “fly”) to poet William Blake. Below the quotes are lines which the colorist can use to journal their own thoughts and feelings or perhaps the materials they used to finish the design. All of my markers and gel pens wick through these pages. If I use either of them, I will put a piece of thicker paper or freezer paper under the page I am working on to keep the rest of the book ink free. 1 of 1 people found the following review helpful. Beautiful By Azul As beautiful as her previous books. Good quality paper too. Personally, I am tired of coloring over the same details (little circles) but I have bought about eight of her books so maybe I'm saturated. I hope she would come up with something different. But this one is as beautiful as her previous books. 2 of 2 people found the following review helpful. for the tiny detail coloring book fan By J. Hale You will love this if you love doing pics with tiny details. I find those types very relaxing as I am detail oriented but some will not. I enjoy these types of designs so much that I have bought several of her books and give a few as gifts. Works really well with gel pens and prisma color pens.

Let your imagination take wing! Inside this exquisite coloring book for grownups are 30 ready-to-color art activities that will transport you to a dream world of delightful birds. From peacocks and pelicans to toucans and flamingos, these elegant fowl are so richly detailed it might take you hours to complete just one page. You won't need to have the skills of an artist to personalize these intricate drawings. Talented artist Valentina Harper provides easy-to-follow tips on her distinctive patterning techniques. And as an added bonus, best-selling craft author Marie Browning joins the fun with beautiful coloring examples. Printed on high quality extra-thick paper that won't bleed through, all pages are pre-perforated for easy removal and display. Whether you use markers, gel pens, watercolors, or colored pencils, this book is the perfect way to relax and enjoy coloring.

My office team literally took a double-take at these adult coloring books. Beautifully illustrated to keep anyone's attention, making the coloring process fun as each page is decorated with one's unique colors and style. They're also a great tool for aligning one's thoughts with empowering truths and unleashing creativity. --Mike Dooley, NY Times Bestselling author of Infinite Possibilities "My office team literally took a double-take at these adult coloring books.
