By MHT Gave this to a best pal who, until she retired, worked with some of the dopiest people in positions of authority ever. Suffice it to say, she loved the book.

By Mildred Nelson I bought this cute book for my son as a joke. We are still chuckling over it.

There's a lot of stupid out there and Caldwell channels it in her new offbeat, hilarious, and hiply illustrated book, I See Stupid People. If stupid stresses you out, then you need to check this out. I See Stupid People is a little pick-me-up for dealing with (and working with) the generally annoying and IQ-challenged breed of humans. And they are everywhere. It soothes stress like a freshly brewed cup of coffee. Heck, it might even have the power of coffee and a private screaming session in the coat closet.* "So when's the wizard going to get back to you about that brain?" and "You drive me to drink. Thank you." These are just a few witticisms shared with readers.* It is the perfect combination of LOL one-liners (the stuff most of us are too scared to say out loud) with expressive characters and illustrations. I See Stupid People is chock-full of what we're all thinking but the PC in us won't let it out.
