Tuvia Tenenbom : I Sleep in Hitler's Room: An American Jew Visits Germany before purchasing it in order to gage whether or not it would be worth my time, and all praised I Sleep in Hitler's Room: An American Jew Visits Germany:

1 of 1 people found the following review helpful. A must read for those interested in European issueBy B. PockerI read an article by this author in a German newspaper, translated into English by Google. Had never heard of him but the writing was exceptional. There was a mention of this book, a best seller in Germany and elsewhere. Again, I had no idea what to expect other than his writing style and gonzo journalism appealed to me. What a surprise I was in

for! This man is a genuine journalist, interested in uncovering the truth of things and willing to let the reader have insight into his biases. The book is an amazing exploration of Germany today. It explained so much of what we read in the news in surprising ways, through his travels and interviews with people of all walks of life. Truly an astonishing feat! Highly recommend it. Put your preconceived notions aside and travel alongside this fearless writer to learn what it means to be German today. 2 of 2 people found the following review helpful. Entertaining! By Customer Very funny person is this Tuvia. Huge ego, very smart, very cruel, and very funny. I'm not sure the Germans as seen through this journey are much different from other Europeans, or Americans or Israelis for that matter. The youngsters are dumb and ignorant, the grownups just ignorant, many times by choice. It's very fun to read, except for German people. It would have been great, Tuvia, if you went to other countries and report about them too! 0 of 0 people found the following review helpful. Enlightening By Hochdorff Funny, scary, enlightening, horrific, thoughtful and silly. Tuvia Tenenbom has an amazing gift: observation. Coupled with his warmth, engagement and ability to ask questions like a sharpshooter he manages to bring things out of his interview partners they themselves did not know. When he draws everything together in his thoughts he builds the most precise analysis of modern day Germany. Political analysts should flare at him in envy or make him there king. But they better bring a Rolls Royce!

"I Sleep in Hitler's Room" follows an American Jew who travels to Germany to have a good time but finds anti-Semitism instead. Written with a rare sense of very healthy humor, this book will make you cry, scream, laugh out loud and maybe even change your outlook on life.

Four months on the Spiegel Best Seller list of Germany (equivalent to the New York Times' Best Seller list in the USA)! "A Stunner." "WABC" Asking questions nobody else does, either because they are too improper, awkward, embarrassing or explosive, is the definition of courage -- and this book is a 'kamikaze' ride of discovery into Germany's national character." Die Zeit
