But I found that many of the stories were evocative and moving as well. The memoirs take us back to a simpler time and place before the intrusion of technology into the lives of children growing up. Those of us who grew up in that era can identify with most of the

tales whether they are humorous or poignant. Each story can stand on its own so it is a great book to chip away at for bedtime reading. I congratulate Mr. Bonner on a job well done and would highly recommend this book. 1 of 1 people found the following review helpful. Wonderful Southern Humor! By Jo W. Heath, Author of 1 + 1 = Murder "I Talk Slower than I Think" is a wonderful collection of tiny stories, rather like a photograph album. They're all true, and they reveal charm sometimes and warts-and-all at other times. Each one has genuine characters and makes the reader feel at home: the reader is right there in the middle of the action. Jo Wharton Heath 0 of 0 people found the following review helpful. Item as described. No complaints. Gave it as a gift, so I don't know about the read

"deftly weaves absorbing stories of childhood adventures, and country comedy with family humor. He incorporates snippets of history worthy of being included in American Southern literature." "side-splitting laughter...as well as some somber moments that draw the heartstrings tight." "I laughed until my sides ached while reading, and continued to chuckle and smile for days later as I relived Bonner's "tongue in cheek" accounts of his family life and reflected on my own childhood foibles." by Richard R. Blake, for Reader Views 9 Nov 2012 "This autobiographical book of short stories touches the heart of those of us from Mr. Bonner's generation, and is a good illustration for younger folk of what it was like to live in simpler times... I also could identify with...such things as being taken to the vet in a community that prized its horses and cattle more than it did its children. When I started the book, I'd thought I might read through the first few stories, but I couldn't put the book down. I know that Mr. Bonner must have many more stories to share...perhaps he'll do a sequel" Dawn Edwards, Kindle Book From the Inside Flap from Richard R. Blake, for Reader Views:
