It is funny, it will keep you laughing because he uses words in a way we seldom think of. He has to have a great sense of humor to be able to come up with all these words and puns. It is a great read and great fun to read from at a get-together with family and friends. It would make a wonderful gift for the person who has everything and will definitely bring laughter and conversation.1 of 1 people found the following review helpful. He also has three siblings, one sister and two brothers. Both parents are deceased. "As far back as I can remember, I have always been an "outside-the-box" humorous person. I always look at the humorous side of things so my mind is always working. My family and friends know they will always hear something funny from me and I enjoy seeing them laugh at something I said or did no matter how corny it is.
