Munoz My husband is from Ireland and I had a pile of friends fly out last year to come to my wedding there, so these were great little gifts to give out after their trip was over :) 0 of 0 people found the following review helpful. Okay By Faye Thought it would be a much splashier, photographically impressive book than it is. The idea is good, but the reality falls a bit short. 0 of 0 people found the following review helpful. Lift a pint for the great farmers in Ireland By Mary Lou A delightful and well photographed tribute to the braw laddies who farm in Ireland. Tastefully done, so don't be looking for that :-)

What's sexier than an Irish farmer? Well, lots of things, actually, but they certainly aren't as suave, thoughtful, or bring such infectious joy. For seven years, Ciara Ryan's hilarious Irish Farmers wall calendar has been one of the most popular calendars in Ireland. Now it's time for America to meet the strapping Irish Farmers and a bunch of adorable bunnies, dogs, sheep, and even ostriches, in book form. This funny sweet, and tongue-in-cheek full-color collection of photos of young farmers naked from the waist up alongside their favorite livestock is sure to please the lasses and lumbersexuals alike. From CSA moms to urban woodsmen, from garden girls to grizzly bearded hipsters? one of these clever lads will surely haunt your most secret dreams.
