**From Running Press : Jem and the Holograms: Light-Up Synergy Earrings and Illustrated Book (Miniature Editions)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Jem and the Holograms: Light-Up Synergy Earrings and Illustrated Book (Miniature Editions):

By benjamin bannister I love Jem. I grew up watching her. I thought these would be fun for my niece to get, and have her grow up watching Jem too. The earrings are meh in design. Seriously, it looks like someone just drew some random lines and made a star. Couldn't they bother to use a computer to create a symmetrical- shaped star? It does light up and that's fun—for someone under 10. It also comes with a mini book describing Jem and her band. If you're giving this to a very young person, I think they would like it. The earrings could look better. If they make a version 2.0, use some glittery plastic, and redesign the star to be symmetrical. 3 of 3 people found the following review helpful. sturdy, heavy duty plastic By Omar Syed The earrings are very well made. Really thick, sturdy, heavy duty plastic. The batteries are a dream to change. The book- oh my gosh the book- it is so amazing! I wish there was a larger, coffee table style book, also available like

this. I absolutely LOVE this book! It is so very much worth the price and so much more!

It's Showtime, Synergy! Channel your inner rock star with this "truly outrageous" kit based on the classic animation, Jem and the Holograms. Including a pair of light-up Synergy earrings and a 32-page mini book featuring classic illustrations and original packaging art, this kit provides a glimpse back in time for nostalgic fans and a whole new generation.
