My son was part of the crabbing story.The rest of the book was wonderful and so funny.0 of 0 people found the following review helpful. A laugh a minuteBy Mary CarlsonNot proud but might be the first book I read the whole book since collage, and much better them. I know Jon the fix it man personally and knew of his mis fortunations as they occurred or very soon after though his lovely wife Jeanne and or good friend Bill. Yes Jon really did all of this and lots more that we will hopefully see in the next book. Can not wait as we need " Rap Sessions" and how to line a soccer field.Looking forward to the next book of a real life " you have to be kidding me, you really did not do that". Not to mention the third book since college. Do not ask about the second but it has to do with the mis adventures of raft guides on some White Water trips.John Carlson1 of 1 people found the following review helpful. Very funny - and SO true!By Patricia B. DemetrioThis book is a wonderful summer read. It took me back to my childhood to my Irish dad (so you don't have to be Jewish to be a klutz!) telling all the ordinary things that can happen with an hilarious view. Couldn't put it down - will keep you laughing to the last page, but poignant, too. Treat yourself to a great beach read.

Jews with Tools, True Stories of Life in Jewburbia is a tongue-in-cheek and self-effacing look at how certain members of this time honored religion actually live up to the stereotype that Jewish people are clueless when trying to fix or

repair simple things. But as you'll see, some take it a step further and actually try their best to conquer snow blowers, chainsaws, leaf blowers and everything else with moving parts. Based on all true stories, *Jews with Tools, True Stories of Life in Jewburbia* is guaranteed to make you laugh as you will no doubt recognized some of your friends and neighbors as they try to exist in a world where tools rule, and usually win!
