Buyer Beware!By Barry L.This is an absolutely terrific joke book, and even though it was written many years ago, many of the jokes are still as timely as when they were first written. I know this because I am the author of the book, Marc Barry. The problem is that the publisher, Shapolsky Press, owned by a scoundrel named Ian Shapolsky, hasn't paid me any royalties in many years, even though he still continues to sell my book. Not only that, he has done this to many authors. Therefore, it is my specific request that you do NOT buy this book. This kind of behavior cannot be tolerated.2 of 2 people found the following review helpful. Buyer BewareBy Common SenseIt's ashame when the talented hard work of others is ripped off. Honor the request of this author. It seems only fair!
