Five Stars By Charlene Hossack What a wonderful bible study! Can't wait for more. 8 of 8 people found the following review helpful. Very Unique Way to Study the Bible By E. C. I bought the PDF version of this, plus the PDF of the kid's lapbook that goes along with it. I am currently working through Ephesians before I start on John, so the photo is an example of a page in the Ephesians study where I made a heading for each chapter of the book just to give you an idea of what a page might look like. The thing I like most about this study is that there are lots of ideas and examples of how to doodle through the book, but it doesn't force you to do it a certain way. If you go to Kari's website and download the free Ephesians study you will get

an idea of her style, but the John study is much more detailed. It has a lot more ideas, it digs deeper into the scriptures, and it includes more doodles if you want to copy her style. Which I like to do because I am not naturally talented with drawing. This study not only has you read and then doodle, it digs into the historical context of what you are learning. You will draw maps, timelines, and read information about what is going on around the particular verses you read. It also is broken down so that you can choose to just do a few things (for those who have 15 minutes between running after their kids, work, dinner, whatever...), or go deeper and do the more detailed drawing and doodling. As someone who enjoys doodling, but who is not a natural at drawing and has no interest in making my journals works of art, these work perfectly for me. Because they are so open-ended, I really think it would also work perfectly for someone who loves to make their journals works of art too.

The Journal and Doodle Bible Studies are an engaging hands-on way of connecting with Scripture. These studies are specifically designed to fit into the time you have without daily assignments. There are no fill-in-the-blank questions and no videos to watch. Instead you get to interact with God's Word in a fresh way with doodles, diagrams, lists, and much, much more. Study through the Gospel of John, chapter by chapter, in a creative and refreshing way. Each chapter includes work to do in your Bible, in a journal, and in your life. By the end of the study you'll have a deeper understanding of John's Gospel, a closer relationship with Jesus, and a beautiful keepsake that you've created with your own journaling, doodles, and thoughts.
