**R. L. Stine : Jovial Bob's Computer Joke Book** before purchasing it in order to gage whether or not it would be worth my time, and all praised Jovial Bob's Computer Joke Book:

4 of 4 people found the following review helpful. Inspired my kids to read!!By F. D. Y.My kids have enjoyed the Goosebumps books for the last couple of years. They were really excited about the movie. They were extra excited about the book about the movie. Although they watched the movie first, they were not disappointed to receive the book.And yes, the ACTUALLY read the book, after having seen the movie. Because they enjoyed it so much, I would not be shocked should they re-read the book.In fact, they were so excited about all the cameos made by past Goosebumps villains, that they were inspired to read their old books. Now THAT's worth 5 stars!2 of 2 people found the following review helpful. A+ 5 Stars Great Book for 7-8 and upBy Mom To GrandmaMy granddaughter loved the book as did my sons love their Goosebumps books years ago. These books seem to keep the children (well ages 8 to 14 I would say) interested. My boys and now my granddaughter actually ask and wait un-patiently for the next book. I love books that make children not only want but love to read and I have found that with this and every other Goosebump book. I would suggest this for any reader 7-8 and above. A+ 5 Stars all the way. I paid full price for this book and was not asked nor compensated for buying it nor writing this.1 of 1 people found the following review helpful. good quality, smells like bookBy CarlyleOoooo Spooky!I bought it for my niece for Christmas, This one was one of my favorites as a kid!New, clean, good quality, smells like book.Passes on the tradition of scaring yourself so bad you have to sleep with the lights onHappy reading

This hilarious children's book of computer jokes will have you ROTFL!
