**H. Sage Morgan : Judge Bubba's Christmas Letters: 1995 – Present** before purchasing it in order to gage whether or not it would be worth my time, and all praised Judge Bubba's Christmas Letters: 1995 – Present:

Great reminder of humor in lifeBy AnnieWxillThis book is a hilarious compilation of 21 years of Christmas letters the author claims to be “true...with only slight exaggeration in the telling.” The book offers a litany of down-to-earth adventures and mishaps of “Judge Bubba” and the endearing

patience of his wife, “Rhoda” (R.D.). The couple’s family, friends (particularly fishing buddies), and professional acquaintances (with names changed to “protect the guilty”) are not exempt from being included. The humor is self-deprecating and wry. For example: “But for the minor traffic accident, carbon monoxide warning, and the propane gas leak, our road trip in the motor home was uneventful.” The stories cover day-to-day events of rural life, such as raccoon with opposing thumbs flooding the barn by messing with the water valves, to coping with complications of ageing. Reading this book is similar to seeing a stand-up comic. The author could consider creating some U-tube videos. I'd recommend this book to people who like to be reminded of the humor in life and the value of family and friends. 2 of 2 people found the following review helpful. Five Stars By N. Bishop Extremely funny!

Judge Bubba is now a semi-retired judge, living on a farm with his wife of 39 years, R.D., and their golden retriever, Sam Houston. Bubba and R.D. operate a horse boarding stable on their property. R.D. says sometimes Bubba has the brain of a gnat. But Bubba disagrees: If he's so stupid how'd he know the name of that insect is spelled with a silent g? His annual Christmas letters chronicle the misadventures and travails of Judge Bubba, his family, friends and associates around his farm and his community where there is a constant battle with skunks, fish, criminal behavior, bodily dysfunction, errors in judgment, and even hostile cottonwood trees. As Jimmy Jett says in the foreword: Judge Bubba’s response to the usual obnoxious Christmas letters could easily be titled “The Bubba Annual Report: What Could Go Wrong?” because go wrong it often does.

About the Author H. Sage Morgan was raised in Texas and earned undergraduate, graduate, and law degrees from schools there. In 1975, Sage moved to the Intermountain West, where he met R.D. in a cram course for the state bar exam. They married in 1976 and now each is a senior magistrate judge (i.e., mostly retired rent-a-judge). Sage and R.D. have a rural lifestyle, living on their farm with their golden retriever Sam Houston, where they grow hay and board horses for other people. They have one son, Earp, now an attorney and married to Katrina, as well as grandchildren Jack, Gage, Landry...and Rowan who has preceded all of the family to Heaven.
