Shawn McGhee : Junk Food for Thought before purchasing it in order to gage whether or not it would be worth my time, and all praised Junk Food for Thought:

1 of 1 people found the following review helpful. Entertaining!By A CustomerI have found this book to be close to hilarious, It curbs to the tongue in cheek humor that I enjoy. I particularly enjoyed the honesty depicting the politics in these United States. I also recommend the chapters 24 and 25 they are terrific. The infinity chapter was the ICING ON THE CAKE. I am looking forward to his future books. Keep me updated.

Junk Food for Thought is about everything from food to conspiracies, from weather to parallel dimensions, from fashion trends to existential truths. You look at it, this book is bound to warp the way you think about life in general.
