I had an old copy and wanted a new one to give to a friend and it was easy to find on the internet. This review is from Jan Braun, (wife of Raymond Braun), not Raymond Braun.0 of 0 people found the following review helpful. She loved it.By K. HoldsworthPurchased for my Mother. Laughter, love, understanding, the treasure of friendship.By A CustomerI just received this book from a special friend. We went through it together, laughing at the all to familiar references to everyday occurrences. We loved the "bladder control" page, almost losing our own bladder control laughing. Horizontal stripes on hips hit very close to home. Times of crisis, good samaritans, angels watching over me. This is a joy to receive, everyone should give this to their special friends. I will treasure mine forever, look at it laugh, probably cry at some of the all to familiar references of times we can never recapture, friends that are gone we wish we could share this with. My special friend and I made a promise to each other today, we will tell each other when spit gathers in the corners of our mouths! Thank you Julie Sutton!
