I religiously follow her blog and look forward to the daily funnies that come my way via Holdin Holden on Facebook. I appreciate the honesty and true to life stories and can't wait for what's next from this local Momma of Holden and Parker - you won't be disappointed!0 of 0 people

found the following review helpful. We love Jenny! By Brandi R. Jenny brings you in her life in a very real and hilarious way. She reminds you that you're not alone in feeling crazy through the journey of motherhood. That it's ok to be very best "ok-est" mom in the world at times, and sometimes it's ok to call your kid an A-hole. She normalizes the everyday crazies you feel at times, and let's you know that you're not alone. One of the hardest parts of parenting is feeling that you are failing because sometimes you just want to run, scream, call them A-holes, laugh at them, or whatever the case might be. She let's you know not only is ok but almost all mom's are thinking the exact same thing. You're reminded that wanting to sell them on the black market with a zero return policy is perfectly normal, but at the end of every day after they are all knocked out cold that you wouldn't change a thing because they like you are perfectly imperfect. And that is ok. 1 of 1 people found the following review helpful. Jenny does not disappoint! This book is hilarious By Customer As usual, Jenny does not disappoint! This book is hilarious, I made myself limit the number of chapters read each day just so I could savor it longer, lol If you enjoy laughing your butt off then you should buy this book. If you like potty-mouthed parenting humor (and who the heck doesn't) you MUST buy this book as well as "Musings of a 20-something mom." I have had my husband and kiddos look at me as though I have grown 2 additional heads because I keep laughing out loud as I read. This book is worth far more than the current sale price, get one for you and for everyone on your Christmas list!

When do you know for sure that you've become a parent? For Jenny Schoberl, it wasn't when a human fell out of her lady parts or the first time her baby said "Mama." It was when she found herself, a grown woman, hiding in the bathroom to eat a candy bar, just so she didn't have to share. Parenthood changes people's lives in horrifying and inevitable ways. No matter how hard you resist, you soon find yourself being that parent far too often to deny it. It won't be long before mom jeans and minivans are calling your name. Discussing bowel movements over dinner? Guilty. Peeing with an audience? Check. Grocery shopping alone? Sounds like a tropical vacation! Watching cartoons hours after the kids have gone to bed? Now your only hobby! What do you do when motherhood turns you into someone you hardly recognize? When you open your mouth and, holy hell, your mother comes out? Kids Are Turds proves that you don't need to be Super-Mom to be a "good" mom (whatever that is), but you absolutely do need a sense of humor to get through the hard days. Either that, or you can give in, yank up your mom jeans, and rock a mile-long camel toe. So for the love of retinas everywhere, be strong!

"I couldn't wait to review this project, and it did not disappoint. I have been a longtime follower of Jenny's blog and Facebook page and LOVE them! Her real talk approach to parenting makes you feel like you're not failing to live up to some unrealistic standard. Even with her blunt honesty you can see her deep love for her children throughout the book. It's a great reminder that we ALL go through times like this, and we're all doing the best we can. Thank you, Jenny, for bringing humor and creativity to this life we call mommyhood!" —Dawn Recor, blogger of Diary of a Not So Wimpy Mom "Getting shockingly emotional over soup commercials, treating solo grocery-store-trips like tropical vacations, staying up and watching kiddie cartoons hours after her kids have gone to bed...and, of course, compiling a blackmail album for when her boys get old enough to date? Jenny Schoberl's Kids Are Turds is a ridiculously funny and heartfelt chronicle of what it means to be a mother, and whether falling into parental stereotypes is something to fight—or something to embrace with all your heart." —Dressler Parsons, Student-Tutor.com "If anyone can prove that you're never too old for bathroom humor, it's Jenny Schoberl. Lock yourself in the bathroom with Kids Are Turds and laugh away . . . likely while your own kids are being turds!" —Leanne Shirliffe, author of Don't Lick the Minivan and Mommyfesto "Moms everywhere, rejoice! Kids Are Turds gives you permission to whine into your (much-needed) wine as you flop down in exhaustion after another day of wiping up the unmentionable mess you know will magically reappear tomorrow. Laugh it off, ladies—let Jenny show you how." —Karen Moline, coauthor of the New York Times bestseller, Sh*tty Mom: The Parenting Guide for the Rest of Us
