2 of 2 people found the following review helpful. and they enjoyed reading the stories By Linda This book is witty and hilarious. I bought it for someone in med school, and they enjoyed reading the stories. Each chapter is really short, and they're not really linked to each other, so this is definitely a book that can be read for fun by a busy person (such as someone in med school). There's also a surprising amount of actual advice hidden in a book aiming to be funny.
