ShafferBought the other book on Tudors by the same author. I like the way the author presents the information. I have a hard time putting it down in the evenings. The book is compact for travel (fits in a purse). Love it.

Which king's guards massacred his supporters by mistake? Who had an oversized tongue and slobbered when he ate? Who survived seven assassination attempts? It wasn't all thrones and scepters for British monarchs. Some were batty, others vicious, and some became much-loved icons. Meet these rulers, discover their bizarre habits, and enjoy quirky stories, fascinating facts, and fun lists.
