Funny and cleverBy Paula RossowIf you've been following Ms. Koller's Facebook page, then you, like me, have been anticipating this book's publication. It is very, very funny -- the wit and wonder of the parrots' interactions with her will appeal to adult parrot owners, and yes, you'll "lol." ;-)I wish the book were longer, and there are a number of typos/punctuation errors. The laughs outweigh those issues, however.0 of 0 people found the following review helpful. Awesome funBy SHanlonCute book on how parrots run our lves! Very funny and very true.

Parrots have been talking for ages, but now they're moving into the modern age! Follow the trials and tribulations of a parrot owner who continually gets texts from a pair of cheeky green cheeks. A great coffee table book or treat for any parrot lover!
