It'll make you laugh, say "awe", think, raise your eyebrows, cry (from tenderness and laughter) want to read it again. Randy's passion for serving God is evident and sincere. His quest to find meaning and purpose are defined by the many souls hes met along the way...all of which played a grand role in shaping what we now see as the man on the pages of this book! What is so apparent are his convictions, humbleness, and humility throughout the words that describe his journey. He gives honor where honor is needed doing so by taking a backseat to those blessed enough to make his acquaintance. What are you waiting for? Buy the book and see for yourself!0 of 1 people found the following review helpful. Delightful and WittyBy G. NicholsonThis book had me rolling with laughter. In a world that worries too much, these stories reminded me that life is best enjoyed with friends and lots of laughter.0 of 1 people found the following review helpful. Don't take this book too serious...By Jidge...It's more fun that way."Thank the Lord for Leroy" is a book about everything important in life: growing up, getting old, screwing up, family, friends (like Leroy), importances of experiences (big or small), and the one that connects it all...our Heavenly Father.Randy has a rare ability to take lighthearted life stories, add some details that may or may not be truthful, and turn them into lessons on the grace of God.Humor and wisdom have never been matched together as well as they are here.

What do a pink van, ice cream, too many hats, and a speeding ticket have to do with our relationship with Christ? At first glance, one might think, Not much. In Thank the Lord for Leroy, author Randy Ray walks us through his journey in life with some off-the-wall and amusing stories. These stories are sometimes insightful, often thought-provoking, but always humorous. He introduces us to things like an iron-stealing ferret, what it's like to fall into an orchestra pit, and-very importantly-why donuts are so much better than bagels. Ray also describes what it is like when a math-avoiding parent meets that inevitable day when a child needs help with math homework. From experience, Randy tells what it is like to start a Christian band, sign a record deal, and embark on the craziness that comes with being on the road. He also takes a lighthearted and poignant look at Christian marriage and family. Through it all, his off-beat friend Leroy provides him with a "friend who sticks closer than a brother" -even if, at times, you wish he didn't!
