**Brian Scott : That Day, Great and Terrible** before purchasing it in order to gage whether or not it would be worth my time, and all praised That Day, Great and Terrible:

2 of 2 people found the following review helpful. and nothing at all like what I was expectingBy 15spikerA really well written book. Different than anything I had read in the past for multiple reasons, and nothing at all like what I was expecting. It's writing style of breaking up chapters was something I had not experienced before, and while strange at first, I really grew to appreciate and enjoy it. However, if you're looking for a Christian devotional, this isn't it. If you're looking for an uplifting feel good novel, this isn't it. If you are looking for a book that will challenge your

thinking and cause you to rethink what it means to be a Christian, than this may be for you. It gets messy and graphic at times, but so do people, and that's why I appreciated it so much. People sin when they try to be a better God than God. This book points that out, and caused me to evaluate my own as well. A very different, but worthwhile read in my opinion. 1 of 1 people found the following review helpful. I thoroughly enjoyed the style in which it was written. There are two reasons that keep my turning the pages throughout this book. First, I thoroughly enjoyed the style in which it was written. Each chapter tells the story from different viewpoints from different characters. It is a unique style that I think more authors should adapt. But more importantly, the characters are real and their struggles are authentic. The book doesn't offer easy answers but offers real life. There are times in which I read to escape reality and there are times when I read to help interpret reality. Brian Scott's book does the latter and does it well. I look forward to more books by Brian Scott. 2 of 2 people found the following review helpful. snapshot chapters of each one gives the book a fantastic sense of urgency. By BJamesly A very engaging character-driven novel that pokes and prods at cryptic church culture as the world is ending. The dark and flawed characters are like-able and the short, snapshot chapters of each one gives the book a fantastic sense of urgency. The author leaves Jesus knocking at the door in this novel, inviting the reader to have a brain exercise on theology while searching for clues on where and what God is. Highly enjoyable, funny, and pleasantly stinky at times.

"It's a wild ride (so many things freaked me out, my heart was racing). People are manipulated, children are possessed, Scott hits magical realism notes at all the right places. The book reads like a Haruki Murakami novel, so real until it isn't." Rev. Clint Schneklath, author of *Mediating Faith*. "I truly loved it. It had a bit of Stephen King (sans gore) and even a bit of Hitchcock. I didn't want to go to bed last night because I was so close to finishing it but couldn't keep my eyes open. It was such a good read and had a great ending." eBook Reviewer. "The book engaged me. It made me think. It made me question. It humbled me. It reminded me of what is important: hope, trust, and love." Goodreads Reviewer. "If you're looking for an uplifting feel good novel, this isn't it. If you are looking for a book that will challenge your thinking and cause you to rethink what it means to be a Christian, than this may be for you. It gets messy and graphic at times, but so do people." Amazon Reviewer. SUMMARY: Angela is on a never-ending road trip she can't escape. Kat is the mother of a son whose bizarre behavior fills her with horror. Milton is a teen with nothing to say. And Gabe is a college student searching for glory. These four lives twist together in a small Minnesota town. As the world begins to fall apart, they must face their darkest sins and brace themselves for the coming of that great and terrible day.

About the Author Brian Scott is a Lutheran pastor and author. He lives in Red Wing, Minnesota with his family.
