**Bernadette Gervais, Francesco Pittau : That's Dangerous!** before purchasing it in order to gage whether or not it would be worth my time, and all praised That's Dangerous!:

Can not imagine a time when I will find this humorous or appropriate. I understand the intent, and the other reviewers insinuations that you have to have some advanced sense of humor to "get it". But, the truth is, I don't think small children need to have these thoughts or images planted into their minds. I can't imagine they'd even think to do half of these things. But, the worst part is the lax statement at the end - "being alive, that's dangerous". It's as if to say you shouldn't worry about all the other very real dangers mentioned in the book, because just rolling out of bed is dangerous. So, go ahead and play with knives. By the time my daughter is old enough for me to let her have this book, she'll have moved on to far bigger and better things. With the wonderful world of children's literature available, do not waste your time on this. 1 of 1 people found the following review helpful. Did not meet expectations By Kurt recommended by our friends. We tried it out. Not 100% on board with content. My father read the book to my son and said "is this book ok for kids". Out of rotation for my son, maybe when he is older. That being said. I question the content but the book it self is well put together. 5 of 6 people found the following review helpful. My 7-year-old found it hilarious By Ginger O. I see that another parent posted that the book is not for kids. It does have a humorously anarchic point of view, so I can see how it would not be great for every kid, especially kids who take things at face value. But my son at 7 immediately got it, thought it was hilarious, and read it

over and over at a time when reading was really hard for him, and not very much fun. He's 10 years old now and he still gets a kick out of the book when he comes across it. In fact it's become a running family joke (Don't do that! That's DANGEROUS!)

This audacious little book for children ages three and up is a catalog of "don'ts" sure to make kids squirm and squeal with delight--and parents laugh out loud. Jumping down the stairs, sticking your fingers in a fan, swallowing thumbtacks...That's Dangerous!
