**Matt Mogk : That's Not Your Mommy Anymore: A Zombie Tale** before purchasing it in order to gauge whether or not it would be worth my time, and all praised That's Not Your Mommy Anymore: A Zombie Tale:

By Fc Stains My Grandnephew has been waking up for many nights now, wondering when his mother will be turning into a Zombie. She has at time turned into a Monster, A Screaming Banshee, a terrifying Harpy, a Subdued Princess, a Strong Willed Mother figure, but alas, not yet a Zombie. My Grandnephew wishes to hear the story time, and time again, all in the hopes that his mother will be Zombified. I do have a plan. I am removing all coffee products from the house in the hopes his literary wish comes true. Buy the book. 1 of 1 people found the following review helpful. Great Adult Kid's Book By Amie A play on the highly illustrated and rhyming books that kids seem to love so much, this one is about a boy's slow acceptance of his mother's new role in life: that of undead murderer. The dog remains his faithful companion, and we all wish our heroes well as they attempt to stave off a litany of zombie mutants. This book is great, its rhymes are clean. Just don't show kids 'til they're pre-teen. 1 of 1 people found the following review helpful. Maybe not for the younger kiddies, but for the adults? This RULES. By Robert Beveridge Matt Mogk, That's Not Your Mommy Anymore: A Zombie Tale (Ulysses Press, 2011) Not terribly sure I have anything to say about this charming-yet-nasty little volume that hasn't already been said, but by cracky, it's a bundle of fun. I'm not too sure it's going to get read to the kid any time soon (and I say this as someone with a kid who at the impressionable age of five months is already riveted by movies like La Horde and The Call of Cthulhu), because some of the (wonderful) illustrations have details that are perhaps a bit on the disturbing side for younger eyes, but as a zombie-loving adult, I found it irresistible, in the tradition of "this looks a lot like kidlit, but it really isn't" (think Goodnight Keith Moon here, but without riffing on an existing classic). Whether you do or do not have little ones running around, if you're a zombie fan, I can't recommend this one highly enough.

**CHARMING ILLUSTRATIONS BRING TO LIFE A GHOULISHLY FUN STORY**In the ongoing effort to warn an unprepared world of the rising danger from zombie attacks, one vulnerable group has been left out: small children. *That's Not Your Mommy Anymore* is an inviting and entertaining story that helps early readers understand that a mom with fresh brain casserole on her mind probably isn't their mommy anymore. Not just for kids, adult readers are sure to love this hilarious parody as much as the real children's books they enjoyed in years past.

"Younger kids might be a little frightened by the idea of a formerly loving mother who now wants to dine on human flesh, but older kids and grown ups will get a kick out of this tale." --GeekDad, [Wired.com](#)"It's like Dr. Seuss meets *Night of the Living Dead*. Which to me is a perfect childhood!" --As It Happens, [CBC Radio](#)"The double page spread that pays winking tribute to the most famous zombie film characters is worth the cover price alone." --[Horror World](#)"*That's Not Your Mommy Anymore* is a beautifully illustrated and fun to read book which helps kids spot the early warning signs of zombiism." --[SuicideGirls.com](#)"Chronicling the zombie apocalypse through a Seuss-esque filter, the colorful book serves as both a valuable narrative for adults and cleverly disguised survival guide for children." --[Geekscape.net](#)**From the Back Cover**When Matt Mogk was a little kid he suspected his mom might be a zombie. Turns out she wasn't, but that experience led him to start the [Zombie Research Society](#), and become a leading global authority on all things undead. Through his work Matt knows that there will be tens of millions of zombie moms in the coming pandemic, and so he's dedicated his life and this little book to helping people of all ages better prepare for the day their moms try to eat them.**About the Author**Matt Mogk is a longtime zombie enthusiast who founded the [Zombie Research Society](#) in 2007 and continues to serve as Head Researcher.
