**Michael Powell : The Accidental Gardener: How to Create your own Tranquil Haven** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Accidental Gardener: How to Create your own Tranquil Haven:

Designed for the inept armchair gardener, this title gently guides the reader month by month through the seasons, showing what are weeds and what are not (even if the weeds are pretty), how to dig holes, and how to squish unwanted insects. You too can create a tranquil haven in your own backyard that you'll be too exhausted to appreciate.

About the Author Michael Powell is a big fan of Diarmuid Gavin who first introduced him to the subtleties of concrete. He lives in an NCP car park in Somerset with his wife and two small bollards.
