Savage. Menacing. Ruthless.Predators get a pretty bad rap. Sure, they prey on helpless animals that never stand a chance, but behind those jagged teeth, powerful jaws, and razor-sharp claws, every predator has a softer side. Maybe even an adorable one.Everyone has compassion for the cute bunny or lamb. But what about their predators who are working hard for their meal? Capturing their prey is a life-or-death game. Just think about the last time you had to hunt for food while hangry. You can understand, right?Including famous quotes from history that give context to these disturbingly cute illustrations, Alex Solis shares his sense of humor while giving readers a way to enjoy the darkest parts of life with a smile.It's time to give theses predators a break! Because, in the end, both predators and their prey play a role. I mean, it's not their fault they were made this way! They're just living off of instincts, doing what comes

naturally to them. So rather than turning away from nature, let's celebrate all the animals who complete The Adorable Circle of Life.
