As an introvert and mother, they spoke to me on many different levels. Sadly, including the ones about being neat and tidy! I read her blog daily and enjoy her perspective on life,

knitting, children and, yes, self-esteem! 13 of 13 people found the following review helpful. Another winner by the Yarn Harlot! By Molly Donnellan This one does have less about knitting than what we're all used to (and love). But as a reader of Stephanie's blog, I've always enjoyed her take on life, love and family. She has a great perspective and a heartfelt eloquence in expressing it. 2 of 2 people found the following review helpful. perfect book By HoleyFiber I really enjoy reading this book. You know what it remind me the most? These late night conversations with your best friends, when kids are finally in bed and men of our lives are somewhere in the patio drinking beer and talking their things, and you two can just sit on a couch with a glass of wine, and talk about things in your life that you normally don't talk much, and share the thoughts and stories that make both of you laugh and cry, somethings at the same time... This is how this book felt to me. Very honest, very moving, very funny, and very touching. Loved it.

? From New York Times best-selling author and popular blogger Stephanie Pearl-McPhee comes a new spin---a hilarious look at life, parenting, and, well, pants. *The Amazing Thing About the Way It Goes* takes on the amazing in the ordinary in this side-splitting series of short commentaries. Pearl-McPhee turns her trademark wit and perspective to everything from creative discipline to a way you would never think about fixing your email situation. This book looks at everyday problems--and honestly won't do much to solve them--but at least you'll be laughing.

About the Author? Stephanie Pearl-McPhee is the author of several books and three collections of essays: *Yarn Harlot*, *Free-Range Knitter*, and *All Wound Up*. (Two of those are New York Times best sellers, which both Stephanie and her mum are really proud of.) She maintains a popular virtual home at [www.yarnharlot.ca](http://www.yarnharlot.ca), and a less organized (and popular) actual home in Toronto, Canada. She's a mother of three, a wife of one, can drive a standard, and has owned two cats in a row that don't care much for her.
