the pace of my reading and maybe get some chuckles. Some funny stuff but also some tired same old stuff over again. But that's the book a one sided guide which you have to read lightly since no ones opinion is gold. Don't expect much and you will get some chuckles. His other book was much better as it was a bio and not a guide. 3 of 3 people found the following review helpful. Did not enjoy it as much as Jason's first book. By Brian C. Newell It's Okay. I don't think this book is written for me. I read Jason's first book and really enjoyed it, but this book left me feeling like he is a person who I don't want to be like. I can see how some people would really appreciate this book, but for me I give it a solid Meh. 0 of 0 people found the following review helpful. Hopefully this ends his literary career. By White Dog His first book was good. it described his struggles, road to success, fall, and then redemption. this book is crap. it is about how to pick up hookers, telling women to get boob jobs and nose jobs, and when doing a threesome, don't play favorites with one of the women. Any moronic 12 year old could have written it. I really want my time and my money back.

It's about remembering that you are alive, right now, and that won't always be the case. So do something. Anything. Enjoy the ride. Go outside and get naked. And true confidence is something you have to earn, by deciding what you want from life and then pursuing your passion until you make your dreams a reality.
