Michelle M. Murphy : The Barista Diary before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Barista Diary:

0 of 0 people found the following review helpful. Didn't Want to Put it Down! By Mrs. L.G. This is a great read especially for people who LOVE espresso. This book makes me want to live in the mountains of Washington and open an espresso/gift shop. The journal entries are simple, funny, and fun to read. I highly recommend this book and am looking for a similar read since I am 3/4 done with this book. 0 of 0 people found the following review helpful. A Great Summer read! By Jean Zuccaro I think the best thing about this book is that you can read it by the day, the week or by

the month! However you will get so totally caught up with Christy that you will try to absorb it all at once! No boring life for Christy, the Barista! Everyday brings old and new challenges! Not always what she expects, however her pioneer spirit and her past life experiences help her cope with anything she is faced with! Christy is certainly a little gun shy with men! OOPS! You have to read the book to find out why! Christy, our sceptical yet funny Barista, is also serving you up 365 ways to serve Espresso or other beverages and gain wisdom in life! This book offers a lot of everything! Trials and tribulations, wisdom and experience, and a lot of fun! 0 of 0 people found the following review helpful. A very good buy! By Monita Kerley The Barista Diary was a truly delightful surprise for me. I had not heard of the author, so had no expectations. What I found is a book that keeps such a pace that it is difficult to put down. I have known mountain women like Christy all my life. Many did not live in the mountains, most had all their teeth, but they all brought vibrant color to my life. The Barista Diary is not very kind to the male of the species, although real men should get a kick out of Christy's take on dudes of all types. She certainly is not alone. Murphy's wit and wisdom gives this book a depth that was appreciated only after I had put the book down. Upon reflection, I found that I had been re-introduced to some valuable "life lessons." This is a funny, compelling visit with a woman of obvious substance, a woman who knows pain and laughter and experiences them with equal gusto. Makes me want to know Christy. The recipes are probably good too.

Chic lit with a hip new twist, The Barista Diary by Michelle M. Murphy is funny, quaint, and delightful. With a blithe tone, the author plays on the palate of coffee aficionados to provide a rich blend of anecdotes about men and women relationship issues in an extreme location. All of this plus 365 daily grind recipes! Compare to Bridget Jones and Nanny Diaries, this shares the life of a barista. (Not affiliated with porn books as listed in Listmania!). A must read for soap opera and coffee addicts. ENJOY!

About the Author A creator of playful greeting cards and a travel rep book, Michelle M. Murphy is a successful realtor, residing in the beautiful Northwest, close to children and grandchildren. Travel is her passion, visiting family and seeking the perfect shell. This is her first novel.
