Who knew that coloring - one of my favorite childhood pastimes - is actually an amazingly restorative and ...By Carol G.This is my very first adult coloring book. Who knew that coloring - one of my favorite childhood pastimes - is actually an amazingly restorative and meditative practice, no matter your age? Maybe that's why I liked it so much when I was six! There are many adult coloring books out there, but I picked this particular one because I've always been attracted to the beautiful and intricate patterns of the Indian-print "camp blankets" that were so common when I was a child. Those blankets were made by Beacon, and it seemed like pretty much everyone in America had at least one in their home. Recreating those designs with this coloring book is like taking a walk down memory lane. I highly recommend it. So grab some crayons or pencils, curl up with a blanket (make it a Beacon blanket if you're lucky enough to still have one) and start coloring. Its fun! And very

relaxing. Just ask your kids (or grandkids).0 of 0 people found the following review helpful. Fun and historicBy M. FryA beautifully rendered book of patterns made famous by the Beacon Blanket Company. Gorgeous patterns and fun designs -- perfect for relaxing with a box of colored pencils or crayons to lower your blood pressure. I hear there's a documentary coming out about Beacon Blankets, too! I'd be willing to bet that either you or one of your family members had one (or more) of these colorful blankets in your home! Fun!0 of 0 people found the following review helpful. Amazing Designs and a Little History, TooBy Desert WandererAs a certified grown-up, I never thought I'd love another coloring book, but "The Beacon Blanket Coloring Book" is amazing. It lets me bring to vivid life the awesome designs of this now-defunct but once iconic blanket mill. It also teaches me the history of the mill and of the designs included in the book. Since I grew up loving Western movies and books, my favorite design is "Cowboy #2" on page 19. Now, where'd I put my Tumbleweed crayon?

A 24 page intricate coloring book of blanket designs from the classic period of Beacon Blankets, once the most popular blanket in America. Beacon made blankets for camp, touring, hotels, steamship, railroad trains, laps, babies, carnivals and catalogue companies. Relax with a trip down memory lane, where "Beacon Blankets Made Warm Friends.
