Greg Palast : The Best Democracy Money Can Buy before purchasing it in order to gage whether or not it would be worth my time, and all praised The Best Democracy Money Can Buy:

2 of 2 people found the following review helpful. Just Cut to the ChaseBy J. C. RomeroI doubt that my rating and comment is among the majority of the readers, although quite a bit of research went into gathering the facts. My comment is based on my personal dislike of writers giving me the same facts over and over again.. Yes, there were

some investigations/findings that I was not aware of, and/or had forgotten when they were first exposed by the media, but telling them to me once would have been enough. 0 of 0 people found the following review helpful. Solid work from one of the last of the true "investigative journalists" By Jeff Maziarek, author of Codi's Journey While it's been years since I read this book, I can clearly recall that I found great value in it. Not sure what Palast is doing these days, but when he wrote this book and others that followed it there's no doubt in my mind that he could be one of the top 10 best investigative journalists of all time. He doesn't sell out his principles, and always showed the courage to dig deep for the real truth as opposed to the "press release" journalism that is commonly practiced these days. My hat's off to Mr. Palast for his moxie, his character, and his commitment to doing something to make this a better world. 5 of 5 people found the following review helpful. a wake-up call for America By Friðvin Samúelsson I'm only on page 115 of this book, but it was well worth the cost up to this point. In fact I plan to buy more copies for friends and relatives. I had moved on from the Florida election escapades and put it out of my mind as a bad experience that surely won't be repeated. This book has snapped me out of that dangerous mindset. It erased any fraction of a doubt I may have had about whether and how much manipulation goes on behind the scenes to control as much of our lives as possible. We must all maintain an awareness of what is going on if we are to survive as a Democracy...or should I say, RESTORE our Democracy. THIS BOOK SHOULD BE REQUIRED READING IN HIGH SCHOOL.

"Palast is astonishing, he gets the real evidence no one else has the guts to dig up." Vincent Bugliosi, author of None Dare Call it Treason and Helter Skelter Award-winning investigative journalist Greg Palast digs deep to unearth the ugly facts that few reporters working anywhere in the world today have the courage or ability to cover. From East Timor to Waco, he has exposed some of the most egregious cases of political corruption, corporate fraud, and financial manipulation in the US and abroad. His uncanny investigative skills as well as his no-holds-barred style have made him an anathema among magnates on four continents and a living legend among his colleagues and his devoted readership. This exciting collection, now revised and updated, brings together some of Palast's most powerful writing of the past decade. Included here are his celebrated Washington Post exposé on Jeb Bush and Katherine Harris's stealing of the presidential election in Florida, and recent stories on George W. Bush's payoffs to corporate cronies, the payola behind Hillary Clinton, and the faux energy crisis. Also included in this volume are new and previously unpublished material, television transcripts, photographs, and letters.

From Publishers Weekly Whether one believes Katherine Harris's claim that Palast's conclusions are "twisted and maniacally partisan" or Tribune Magazine's declaration that he is "the greatest investigative reporter of our time," one thing is plain: Palast does not shy away from controversy. This collection of reports touches on a number of familiar topics, including Enron, the presidential election of 2000 and the Bush family's purported connection to Saudi Arabia. These issues have been explored in more depth by other authors, but what makes this audiobook so entertaining is its all-star anti-administration cast, including Al Franken, Janeane Garofalo and Jim Hightower. All of the readings are well-executed, but the full plate of narrators can cause confusion. It's unclear how the text is divided up amongst the readers, and at any moment, a new chapter may begin with a new, unidentified voice. Despite the guessing-game nature of the audio presentation, this is still a fun, provocative listen. Copyright © Reed Business Information, a division of Reed Elsevier Inc. All rights reserved. Palast...is one of the last true outlaw journalists not afraid to take on the big boys. -- MetroActive About the Author Greg Palast's writings have appeared in The Washington Post, Harper's, and The Nation. He's been a guest on Politically Incorrect, C-Span's Washington Journal, and does regular investigative reports for BBC Nightline. Winner of Salon.com's 2001 "Politics Story of the Year," Greg Palast is a legend among his colleagues and his devoted readership worldwide. He divides his time between New York and London.
