There are lots of real computer programmer jokes out there, mostly too esoteric to have a big audience. These aren't them, they're just standard slur jokes with the words computer programmer in them. Wish someone would gather some real ones and publish a book. I just googled "joke" and "programmer" and read some good ones. But to be fair, it was described correctly in the description.

The Best Ever Book of Computer Programmer Jokes; Lots and Lots of Jokes Specially Repurposed for You-Know-Who  
If you've ever heard a Jewish, Italian, Irish, Libyan, Catholic, Mexican, Polish, Norwegian, or an Essex Girl, Newfie, Mother-in-Law, or joke aimed at a minority, this book of Computer Programmer jokes is for you. In this not-so-original book, The Best Ever Book of Computer Programmer Jokes; Lots and Lots of Jokes Specially Repurposed for You-Know-Who, Mark Young takes a whole lot of tired, worn out jokes and makes them funny again. The Best Ever Book of Computer Programmer Jokes is so unoriginal, it's original. And, if you don't burst out laughing from at least one Computer Programmer joke in this book, there's something wrong with you. This book has so many Computer Programmer jokes, you won't know where to start. For example: Why do Computer Programmers wear slip-on shoes? You need an IQ of at least 4 to tie a shoelace. \*\*\* An evil genie captured a Computer Programmer and her two friends and banished them to the desert for a week. The genie allowed each person to bring one thing. The first friend brought a canteen so he wouldn't die of thirst. The second friend brought an umbrella to keep the sun off. The Computer Programmer brought a car door, because if it got too hot she could just roll down the window! \*\*\* Did you hear about the Computer Programmer who wore two jackets when she painted the house? The instructions on the can said: "Put on two coats." \*\*\* Why do Computer Programmers laugh three times when they hear a joke? Once when it is told, once when it is explained to them, and once when they understand it. \*\*\*
