Mark Geoffrey Young : The Best Ever Book of Industrial Engineer Jokes: Lots and Lots of Jokes Specially Repurposed for You-Know-Who before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Best Ever Book of Industrial Engineer Jokes: Lots and Lots of Jokes Specially Repurposed for

You-Know-Who:

If you've ever heard a Jewish, Italian, Libyan, Catholic, Irish, Mexican, Polish, Belgian, Norwegian, or an Essex Girl, Newfie, Mother-in-Law, or joke aimed at a minority, this book of Industrial Engineer jokes is for you. In this not-so-original book, *The Best Ever Book of Industrial Engineer Jokes; Lots and Lots of Jokes Specially Repurposed for You-Know-Who*, Mark Young takes a whole lot of tired, worn out jokes and makes them funny again. *The Best Ever Book of Industrial Engineer Jokes* is so unoriginal; it's original. And, if you don't burst out laughing from at least one Industrial Engineer joke in this book, there's something wrong with you. This book has so many Industrial Engineer jokes; you won't know where to start. For example: Why do Industrial Engineers wear slip-on shoes? You need an IQ of at least 4 to tie a shoelace. *** An evil genie captured an Industrial Engineer and her two friends and banished them to the desert for a week. The genie allowed each person to bring one thing. The first friend brought a canteen so he wouldn't die of thirst. The second friend brought an umbrella to keep the sun off. The Industrial Engineer brought a car door, because if it got too hot she could just roll down the window! *** Did you hear about the Industrial Engineer who wore two jackets when she painted the house? The instructions on the can said: "Put on two coats." *** Why do Industrial Engineers laugh three times when they hear a joke? Once when it is told, once when it is explained to them, and once when they understand it. ***

About the Author Mark Geoffrey Young is an American-Australian writer, journalist and humorist who has written hundreds of books, articles and scripts for magazines, newspapers and radio stations around the world.
