Rossy Zapata : The Book of 100 Dragons: A Fantasy-themed coloring book before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Book of 100 Dragons: A Fantasy-themed coloring book:

6 of 6 people found the following review helpful. Great for Dragon Enthusiasts! By Victoria W. This coloring book was on a wishlist for a friend, so I had to snag it for its price. I was intensely impressed with the sheer size of it! It has more pages to color than you could imagine. The pictures are easy on details, but they are quality printed and on nice paper. The book is bound very well. I think this coloring book is just perfect for a Dragon Enthusiast who wants a variety of different dragons to color. I would certainly recommend it at this price to anyone looking to score a gift or for someone who wants one of their own! 1 of 1 people found the following review helpful. Great dragon coloring book for children! By Alex S My daughter is 8 years old and she loves drawing and coloring... and one of her favorite things to draw is dragons. This is a really great book for kids, but it's not really geared towards adults. We have actually

gone through two of these and purchased the Level 2 book. Highly recommended for any young dragon fans!3 of 3 people found the following review helpful. Great coloring book!!By The GalesMy son loves dragons, from how to train your dragon to dragonology, he loves it all. This coloring book has lots of neat dragons. There were a couple designs he didn't like but with so many to choose from it was a great book for him.

Level 1 : Very Easy For the LEVEL-UP version of this book, please check out "The Book of 100 Dragons LEVEL 2" from the same author. This is a compendium of Rosy Zapata's dragon drawings made mostly during early 2005 up to 2009, formatted into a coloring book perfect for dragon lovers. It includes dragon depictions from around the world (ranging from classic European, to Mexican, Chinese, Japanese, South Korean, Bhutanese, Indonesian, and many more). It comes in an assortment of both simple and complex designs, both full body and head-busts, some friendly-looking, some fierce-looking, so if you intend to share or swap during coloring parties or while having quality time with your little ones, there's at least one dragon suited for every age range, one dragon for each personality type, one dragon for any mood. This coloring book is formatted as Single-page drawings, don't worry about bleeding media anymore! Also suited for people interested in coloring as a form of ASMR therapy (Autonomous sensory meridian response)
