Somehow it has been very accurate for me and my friends. I understand that most of the answers are the blurry kind that you kind of interpret by yourself, but somehow it made senses every time. My friend tried to test it and asked whether she's okay to drink the yogurt now, and the book shows "absolutely not". Then she found out the bottle she bought passed expiration date... And this book is an excellent home party tool and topic opener. 3 of 3 people found the following review helpful. easy decisions as a lighthearted gag By Customer Sent this to a long time friend for his birthday. He has been struggling with his direction in life. This gift was meant to help make all of his little, easy decisions as a lighthearted gag. He truly appreciated this book and thought it was a fun, neat idea. 1 of 1 people found the following review helpful. Upgrade from Magic 8 Ball By Kathryn This book is a beauty! It makes

for a great coffee table conversation piece. I bought it for my friend who uses a Magic 8 Ball to make decisions. Yes, that is what I said, a Magic 8 Ball. When I found this book, I knew I just needed to buy it for her. My friend recently posted a picture and it looks very nice on the table in her living room.

Wouldn't it be nice to have a handy method of handling some of life's more pressing dilemmas? The answer to that question (and hundreds of others) is in this unique little book that's impossible to put down.
