**Mr. Jonathan Jay Brandstater : The Book of Mice: Book I: Mostly Mice (Volume 1)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Book of Mice: Book I: Mostly Mice (Volume 1):

The first volume of the Book of Mice is a humorous look at fictional mice of prehistory and history, from the age of

dinosaurs to a probable future. The content is a series of illustrations with explanatory text.

About the Author Jonathan Brandstater spent most of his life in Stamford, Connecticut and now lives in South Florida. He has a bachelor's and master's degree in Psychology. Mr. Brandstater's hobbies include writing, drawing, painting, sculpting, making and playing musical instruments, creating animation videos and going for walks. Although Mr. Brandstater likes to draw a variety of subjects, cartoon animals remain his favorites. Some of the characters he has created are almost as old as he is. The Book of Mice is his first book.
