Tom Weller : The Book of Stupid Questions before purchasing it in order to gage whether or not it would be worth my time, and all praised The Book of Stupid Questions:

0 of 0 people found the following review helpful. Definitely stupid, but FUNNY!By Phipps Phunny PharmI love quirky things, especially quirky books. This book is filled with thought-provoking questions from a totally different angle. I have bought several of these over the years and given them to friends with the same bizarre sense of humor that I have. Always a big hit. A lot of the questions get funnier the more you read them. Definitely one of my favorite books in my collection.0 of 0 people found the following review helpful. A Different Slant On Tom Weller's HumorBy Thomas J. HoehlerNot Tom Weller's best effort, but pretty entertaining nonetheless. Drags in places, and some unfunny stuff in others, but overall a pleasant read. If you are tuned into Tom's type of humor, you will enjoy this one.3 of 3 people found the following review helpful. Just what it says on the coverBy RobyrtFans of Tom Weller's excellent humor books Science Made Stupid and Culture Made Stupid will find very little in here of his original charm. There are no endearingly dumb illustrations, lots of predictable one-liners about mothers-in-law and lawyers and ministers that stand-up comics have been using since the dawn of time, and about 50 too many meta-jokes about how dumb the reader is for looking through this book. I am forced to agree with those: This is a waste of time, with about 2 pages of great gags padded to book length.
